

The perfect bag for every bike

K-DRIVE LUGGAGE FOR MOTORCYCLES

By Vortex

Universal tailpacks

T4 : Universal, aerodynamic tailpacks for sport & naked bikes.

- Thanks to CCF technique, this aerodynamic bag keeps its shape, even when empty.
- The preformed flap is closed by means of a (hidden) double zipper.
- Firmly mounted on the bike by means of 3 adjustable, soft straps.
- Although, the used material (nylon 820) is waterproof, a rain-cover is included.
- Dimensions : 37cm x 25 x 29

Due to the position of the grips on the bikes, this T4 may be too big for certain bikes. Therefore, we have a smaller brother available : the "T3"

K-Drive CCF Tailpack "T3"

K-Drive CCF Tailpack "T4"

2 versions are available :

T3 : Dimensions : 33 x 22 x 27 cm
Capacity : 31L

T4 : Dimensions : 38 x 26 x 30 cm
Capacity : 39L

Nomad Universal Tailpacks

Fit most of sportbikes, touringbikes, cruisers & adventure twins.

Nomad 1 uni : Universal tailpack 42L - Dimensions : 43 x 33cm

Nomad 2 uni : Universal tailpack 58L - Dimensions : 58 x 33cm

Belt from
A to B

Longer elastic belts are
optionnally available

Elastic belt from
A to B or A to C

Longer elastic belts are
optionally available

3 belts are included in each universal Nomad Tailpack. For some bikes, these belts may be too short or too long. Longer or shorter belts are optionally available.

These tailpacks can also be used on the carriers of cruisers, naked bikes etc.
