Universal sissybarbags

S4 : CCF Roll - sissybarbag

Thanks to our new CCF technique, these rigid bags are strong, light and they keep their shape, even when empty. This sissybarbag opens by means of a big, preformed flap, it has a big sidepocket that is closed by a double zipper.

This bag can steadily be fixed on the sissybar with carrier by means of 2 strong, elastic velcro strips.

Thanks to these elastic straps, the bag will fit almost every sissybar.

These straps can be hidden by means of a padded flap that also protects the back when this case is mounted on the sissybar.

Although, the used material is waterproof, a raincover is included.

Code : S4

Capacity : 38L

Dimensions : 42cm x 28cm

The S4 has an ergonomic handle. The case is closed, by means of a big flap at the front of the case. This case has a big sidepocket, closed by a double zipper.

R9 : a form retaining sissybarbag that can be used as a rucksack

Thanks to the "CCF" technique, even an empty bag keeps its shape .

- Made of strong, waterproof nylon.
- Raincover.
- Big outside pocket.
- Reflective stripe for more safety.

Comfortable, padded rucksack straps can be hidden. Can be mounted very easily on most sissybars by means of 3 elastic velcro straps. The straps can be hidden by means of a padded flap that also protects the back when used as rucksack or
